FAQs: You Have Questions, We Have Answers

Where does my health information in the Portal come from?

All of the information in the Portal comes from your Delta Regional Medical Center Electronic Health Record. This ensures that you have access to the most accurate, up-to-date information possible.

How do I log into the Portal?

To log into the Portal, visit the Patient Portal link on Delta Regional Medical Center's website. Choose the Meditech Patient Portal Option, simply enter your user name and password (see enrollment information on the reverse side of this page).

Is my information safe?

Yes. Portal passwords are encrypted and URLs are re-written so that they cannot be copied and pasted. You and authorized family members are the only ones who can access your Portal. Also, a timeout feature protects your information if you leave the Portal page open.

What if I ever have technical problems with the Portal?

There is a [Contact Us] section on the homepage of the Portal that allows you to submit any questions you have regarding the Portal. You may also call 662-725-2525 and leave a message and someone will get back to you as quickly as possible.
